

Further Education

BA Recipients 2013-14 through 2015-16

Graduate & Professional Education Placement for Graduates

The Higher Education Opportunity Act (HEOA) requires institutions to disclose the percentage of recent bachelor's degree recipients who pursued further education at the graduate or professional level. These views are derived from matching the 2013-14 through 2015-16 bachelor's degree graduates with internal data sources and with the use of the National Student Clearinghouse Student Tracker Service (NSCSTS). These graduates were tracked through the spring of 2016 to identify advanced degree placement.

The data below reference the bachelor's degree recipients who enrolled in, or received additional credentials from graduate or professional programs beyond their bachelor's degree. The "Areas of Graduate/Professional Study" depict the broad disciplines of these educational pursuits, but this information is only available for students pursuing graduate study at a campus in the IU system. Disciplines with less than 10 instances and records where a credential or enrollment could not be defined are grouped as 'Unknown.'

IUPUI

Bachelor's Degree Recipients	11,285
in graduate or professional programs	2,315
percent pursuing further education	21%

Areas of Graduate/Professional Study	Count	% of Total
Health Professions	629	27%
