**Footnote 1 about Full-time Tuition:** Undergraduates who enroll in 12-18 academic units per semester are considered full-time, and they are charged a full-time "banded" tuition rate.

**Footnote 2 about Books and Supplies:** In recent years, a student survey conducted by the National Association of College Stores (NACS) has found average spending by students on books to be declining due to increases in the number of students renting their books, shopping competitively online, and using more free materials. In an effort to more accurately estimate the costs of books and supplies, certain IU campuses switched from using data from the College Board to using the NACS survey data starting in 2017-18. By 2019-20, all IU campuses will use the NACS survey results as a basis for estimating costs of books and supplies.

**Footnote 3 about Room and Board:** Off-campus estimates are based on information from the "age of reference person table" in the federal Bureau of Labor Statistics Consumer Expenditure Survey report.

**Footnote 4 about Transportation Costs:** Includes modest commuting costs between the campus and the student's primary residence. Beginning in 2016-17, the source used to estimate transportation costs for students living off campus was changed from using average miles based on housing codes and estimated trips to campus to approximately 15% of the College Board's estimated "Low 9-month" cost of attendance for Indiana.

**Footnote 5 about possible rounding errors:** The costs of Tuition and Mandatory Fees are each rounded to the nearest dollar amount before being aggregated and reported above. This methodology is done to replicate how IPEDS collects and publishes this information. As such, reported amounts for Tuition and Mandatory Fees, as well as Total Estimated Costs, may vary slightly from the true costs. To view the true costs, where line items are not rounded before aggregation, view UIRR's Estimated Costs of Attendance report:
